OBJECTIVE

B.Sc. Computer Science graduate (2026) seeking a Technical Support Engineer (Fresher) role. Hands-on experience in troubleshooting, debugging, resolving production issues and supporting end users, backed by a strong foundation in Python, Java, MySQL, REST APIs and web technologies. Quick learner with strong analytical and problem-solving skills, able to explain technical concepts clearly to non-technical users. Open to rotational shifts and weekend support.

EDUCATION

B.Sc. in Computer Science — Thakur College of Science & Commerce, Mumbai University, Mumbai, Maharashtra (2022 – 2026)
HSC (Science) — Esplanade Junior College of Science & Commerce, Mumbai, Maharashtra (2020 – 2022)
SSC — Our Lady of Remedy High School, Mumbai, Maharashtra (2020)

TECHNICAL SKILLS

- **Support & Troubleshooting:** Software installation, Debugging, Testing, Production issue resolution, Chrome DevTools
- **Programming:** Java, Python, JavaScript **Database:** MySQL **Backend:** Python, REST APIs
- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Design, Flexbox, CSS Grid
- **Tools:** Git, GitHub, VS Code, Figma **Data/Office:** Power BI, MS Excel, MS Word **AI Tools:** ChatGPT, Generative AI
- **Networking (Learning):** OSI & TCP/IP Model, VLANs, Routing Basics, Cisco Packet Tracer

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA) — In progress

EXPERIENCE

Full Stack Developer Intern — Insight Fusion Analytics *(November 1, 2025 – April 1, 2026)*
- Optimized application performance and resolved production issues.
- Worked with databases, debugging, testing, and deployment.
- Developed and maintained full-stack web applications using React, JavaScript, Python, HTML, CSS, and MySQL.
- Built responsive user interfaces and integrated REST APIs.
- Collaborated using Git and GitHub in an Agile development environment.

Sports Analyst — Hudl *(June 18, 2026 – September 1, 2026)*
- Tagged match footage and analyzed gameplay to support performance review workflows.
- Used AI-powered tools to accelerate match analysis and improve tagging accuracy.

ACTIVITIES

- IT Support Volunteer assisting peers with software installation and troubleshooting.
- Edited social media videos, improving creativity, UI understanding, and visual storytelling.
- Used ChatGPT and Generative AI for coding, documentation, productivity, and continuous learning.

PROJECTS

- **MySQL Academic Database** – Designed a normalized relational database and implemented SQL queries using JOIN, GROUP BY, Aggregate Functions, and Subqueries.
- **Java Coursework Application** – Developed Java console applications implementing OOP concepts, debugging, exception handling, and file handling.
- **Personal Portfolio Website** – Designed and developed a responsive portfolio website using HTML, CSS, JavaScript, and React.
- **Styled Bio / Landing Page** – Built a responsive landing page with modern UI, typography, accessibility, and optimized layouts.
- **UI Components Mini Pack** – Created reusable UI components including navbar, cards, buttons, responsive grids, and JavaScript interactions.
