Yash Rajesh Dhiver

Accessibility QA | Front-End Developer

Mumbai, Maharashtra • +91 9867601301 • yashdhiver00@gmail.com • linkedin.com/in/yash-dhiver-543941252

EDUCATION

B.Sc. in Computer Science 2022 – 2026

Thakur College of Science & Commerce, Mumbai University — Mumbai, Maharashtra

HSC (Science) 2020 – 2022

Esplanade Junior College of Science & Commerce — Mumbai, Maharashtra

SSC 2020

Our Lady of Remedy High School — Mumbai, Maharashtra

PROFESSIONAL SUMMARY

B.Sc. Computer Science graduate (2026) with a front-end and full-stack development background in semantic HTML, CSS, JavaScript and React. Hands-on experience testing and debugging web applications, documenting issues, and working with developers on fixes. Strong interest in digital accessibility, with a focus on WCAG 2.1 principles, keyboard navigation, colour contrast, and inclusive UI design. Looking to start an Accessibility QA career where I can combine development knowledge with accessibility testing.

TECHNICAL & ACCESSIBILITY SKILLS

Accessibility Foundations: WCAG 2.1 principles (POUR), semantic HTML, basic ARIA, keyboard navigation, colour contrast, responsive/zoom-friendly layouts, accessible UI design

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Flexbox, CSS Grid, Responsive Design

Testing & Debugging: Chrome DevTools (DOM inspection), cross-device responsive testing, bug reproduction and documentation, root-cause analysis

Design: Figma (design review and UI components)

Tools & Collaboration: Git, GitHub, VS Code, Agile workflow

Programming & Data: Python, Java, JavaScript, MySQL, REST APIs, Power BI

Documents & Office: MS Word, MS Excel

AI Tools: ChatGPT, Generative AI (research, documentation, productivity)

EXPERIENCE

Sports Analyst — Hudl June 18, 2026 – September 1, 2026

- Tagged match footage and reviewed gameplay with close attention to detail to support performance review workflows.
- Used AI-powered tools to speed up analysis and improve tagging accuracy.

Full Stack Developer Intern — Insight Fusion Analytics November 1, 2025 – April 1, 2026

- Built and maintained responsive web applications using React, JavaScript, Python, HTML, CSS and MySQL.
- Created responsive user interfaces and integrated REST APIs.
- Tested and debugged features, identified and resolved production issues, and supported deployment.
- Optimized application performance and worked with developers in an Agile team using Git and GitHub.

PROJECTS

- **Styled Bio / Landing Page –** Responsive landing page with modern UI, typography, accessibility considerations and optimized layouts.
- **UI Components Mini Pack –** Reusable navbar, cards, buttons and responsive grids with JavaScript interactions.
- **Personal Portfolio Website –** Responsive portfolio built with HTML, CSS, JavaScript and React.
- **MySQL Academic Database –** Normalized relational database with JOIN, GROUP BY, aggregate and subquery SQL.
- **Java Coursework Application –** Console applications using OOP, exception handling and file handling.

ACTIVITIES & INTERESTS

- IT Support Volunteer: helped peers with software installation and troubleshooting, explaining issues clearly to non-technical users.
- Edited social media videos, building an eye for UI, visual storytelling and user experience.
- Interests: UI/UX design, drawing and sketching, full stack development, AI tools, learning new technologies.
